THE EDMONTON CAMPUS of the UNIVERSITY OF ALBERTA

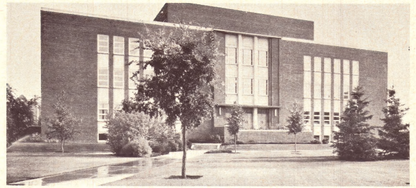
The Campus Overlooks the City of Edmonton

Sixteen faculties and schools comprise what is today referred to as the Edmonton campus of the University of Alberta. It all started in 1906 when an Act passed by the first session of the legislature of the Province of Alberta authorized the establishment of a university in Alberta. Edmonton was chosen for the site and classes began in 1908 in Arts and Science. They were held in what is now the Queen Alexandra School with a student enrolment of forty-five and a teaching staff of four. It was not until 1911 that the first University building, Athabasca Hall, was completed on the new campus which borders the south bank of the North Saskatchewan River.

In Edmonton today, the University of Alberta offers undergraduate and graduate programs in agriculture, arts, business administration and commerce, dentistry, dental hygiene, education, engineering, household economics, law, medicine, nursing, pharmacy, physical education, rehabilitation medicine, and science. The Winter Session begins in September and continues through to April of the following year. During this period, an extensive program of non-credit courses is also offered by the Department of Extension. Summer Session offers a wide variety of courses for university credit during July and part of August.

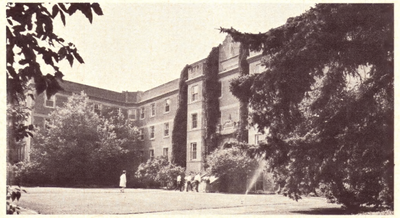
A Calgary campus of the University of Alberta is located on the Banff Highway near the Calgary city limits. It offers degrees in arts, education, physical education and science. Other teaching institutions in the Province affiliated with the University are the Banff School of Fine Arts, Lethbridge Junior College, Mount Royal College (Calgary), Camrose Lutheran College, Red Deer Junior College, St. Joseph's College (Edmonton), St. Stephen's College (Edmonton), St. John's College (Edmonton), the Northern Alberta Institute of Technology (Edmonton), and the Southern Alberta Institute of Technology (Calgary).

THE ADMINISTRATION BUILDING houses the university administrative offices, the Bookstore, the Faculty of Graduate Studies, National Employment Services offices and a sub-post office.

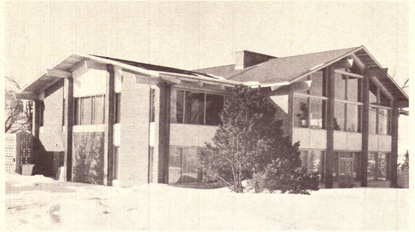


THE ARTS BUILDING was the first purely teaching building on campus, opened in 1915. Connected to it is the well-known Convocation Hall which houses the War Memorial Organ.

THE MEDICAL SCIENCES BUILDING houses medicine, dentistry, pharmacy, dental hygiene and the Surgical-Medical Research Unit. The Dental Faculty features large dental and dental-hygiene clinics and a closed circuit television studio. A number of the medical departmental offices are located in the University Hospital.

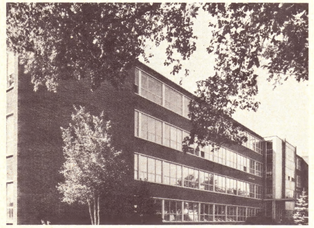


ATHABASCA HALL was the first building on campus. Today it serves as a residence hall, mainly for graduate and foreign men students. Attached to it is a dining hall which also serves Pembina Hall, a women's residence.



THE FACULTY CLUB on Saskatchewan Drive is the dining and recreational centre for members of the faculty. It was built and opened in 1964 with the help of generous donations from friends of the University.

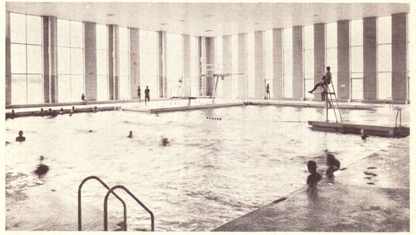
THE AGRICULTURE AND BIOLOGICAL SCIENCES BUILDING houses most of the departments of the Faculty of Agriculture as well as the departments of botany, geology and zoology. Museums in the fields of palaeontology, mineralogy, and petrography are located on the basement floor.



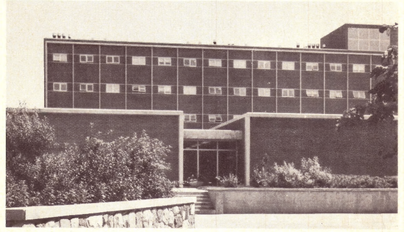
THE LISTER HALL-RESIDENCE COMPLEX accommodates 1,200 residence students. The two residence towers, one for men and one for women, are connected to the Lister Hall food services building by underground tunnels. Lister Hall is equipped to handle cafeteria, formal dining, and snack bar service and serves as a recreational and service centre for the residence students.

THE EDUCATION BUILDING houses the offices and classrooms of the University's largest faculty. Special features of the building include a gymnasium, a specialized library, language and speech laboratories, a speech therapy room and audio-visual training area with closed circuit television, clinical facilities for educational psychology, conference rooms, and lounges.

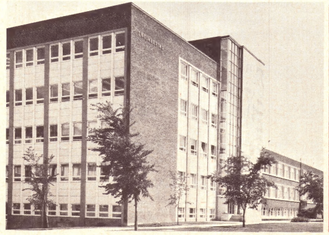
THE CAMERON LIBRARY houses the bulk of the University's 500,000 volumes plus a large collection of documents and micromaterials. It serves mainly the senior and graduate students while the Rutherford Library is useful to the first and second year students.



THE UNIVERSITY POOL, designed to Olympic specifications, is one of the features of the Physical Education Building. Special recreational swimming hours are set aside for faculty and students throughout the year.



THE PHYSICAL SCIENCES COMPLEX is composed of the Chemistry Building and lecture wing (centre), the Math-Physics Building (left), the Nuclear Research Centre (out of sight) and the Radiation Research Laboratory (underground). Among the noteworthy features of these buildings are the large number of laboratories with such specialized equipment as a cobalt 60 gamma irradiation unit, a 6 million volt Van de Graaff accelerator, an electron microscope, nuclear magnetic resonance spectrometers and many others. The Computing Centre which serves the entire campus is located on the top floor of the Math-Physics Building.



THE ENGINEERING BUILDING is the home of all engineering departments except mining and metallurgy. Its specialized laboratories are concerned with the strength of materials, high voltage electricity and electronics, soils and concrete, undergraduate hydraulics, and unit operations.

FOR FURTHER INFORMATION:

Mail should be addressed to the appropriate office at the University of Alberta, Edmonton, Alberta.

Deans of the Faculties of—

AGRICULTURE
ARTS
BUSINESS ADMINISTRATION & COMMERCE
DENTISTRY
EDUCATION
ENGINEERING
GRADUATE STUDIES
LAW
MEDICINE
PHARMACY
PHYSICAL EDUCATION
SCIENCE

Directors of the Schools of—

DENTAL HYGIENE
HOUSEHOLD ECONOMICS
NURSING
REHABILITATION MEDICINE

Registrar—

Admissions, convocation, examinations, records, registration, transcripts.

Bursar—

Student fees, personnel, purchasing.

Director of Student Counselling Services—

Transfers, aptitude tests, personal problems, vocational planning, withdrawal from university.

Administrator of Student Awards—

Bursaries, grants, loans, scholarships.

Director of Housing—

Residence accommodation, off-campus housing listings, food services.
